Address   Turku, Finland

Profile

An experienced Web & Mobile developer is one of my target in the future but I also want to learn other areas to gain more experiences.

Learning path is a long path for me so I am always eager to learn new things.

Attained professional skills:
- Programming in Java, Javascript, Python.
- Using MongoDB and SQL database.
- Developing mobile application with React Native
- Developing Web with Node.js, React, Angular, HTML and CSS.

Joined in some activities:
- Mobile Development Hackathon – Amsterdam
- World Summit AI – Amsterdam

Experience

Front-end Web Development Internship, Roche Diagnostics GmbH – Penzberg, Germany   10/2019-3/2020

- Doing connection between Camunda and Apex Oracle by RESTAPIs
- Designing the front end app by using HTML, CSS, Javascript
- Using database SQL and PL/SQL for the backend

Software Consultant Trainee, Netcompany – Copenhagen, Denmark   3/2019-7/2019

- Working with Web Front-End Development using Angular Typescript
- Using Azure DevOps to manage project workflow

Full-Stack Trainee, Wortell – Lijnden, the Netherlands   9/2018-1/2019

- React Native, Javascript for Frontend and APIs
- Using custom-vison from Microsoft and some libraries Flask from Python for Backend

Education

Bachelor degree in Computer Sciences, Turku University of Applied Science   2016-PRESENT

TURKU, FINLAND
GPA 4.5/5

Hogeschool van Amsterdam – Exchange program – Mobile Development   9/2018-1/2019

AMSTERDAM, THE NETHERLANDS
GPA 8/10
